## Software Developer

✉ anandanhammed002@gmail.com ☎ +919841928136 📍 Hyderabad, Telegana, India

### TECHNICAL SKILLS

- **NET Technologies** : ASP . NET Weforms, MVC, .NET Core.
- **Development Tools** : Visual Studio 2019, 2022
- **Presentation Tier** : Angular, Web Forms, HTML,CSS, Java Scripts.
- **Middle Tier** : Service Layers, API, C#.
- **Data Tier**: Data Access Components & Stored Procedures(ADO.NET), Entity framework.
- **Databases** : Microsoft SQL Server 19.2, Oracle DB.
- **API Testing Tool**: Postman.
- **DeveOps Tool**: Azure Deveops and GitLab.

### WORK EXPERIENCE

#### Dot Net Developer

Revalsys Technology

02/2024 – present | Hyderabad, India

**Project** : EMOC(Management of Change) Process

**Client**: NRL Oil Company

The Management of Change (MOC) process involves transferring a set of documents from one department to another, with approval confirmation and the completion of forms based on the role.

#### Key Achievements and Responsibilities:

- Initialized and created a project plan to implement dynamic page rendering for efficient user interactions from geneartion of Moc to closing of it.
- Enabled data access and modification features tailored to client-specific requirements.

**Project** : Reval ERP

**Client**: Revalsys Product

Their flagship product, Reval ERP (Enterprise Resource Planning), includes modules for HR, sales, supply chain, finance, accounting, and more.

#### Key Achievements and Responsibilities:

- Designed and developed the concept of site subscriptions and module permission handling for multiple sites from a centralized main site.
- Created APIs to manage subscription and site configuration handling effectively.
- Streamlined framework changes and optimizations.

**Project** : Inside Sales Web App

**Client**: DB corp ( Danik Baskar ) Pvt Ltd

It is a newspaper company that has an existing Sales App, used by their employees to manage and maintain sales records.

#### Key Achievements and Responsibilities:

- Developed the Inside Sales module, comprising 9 submodules: Client Upload, Client Master, Telecaller Client Allocation (randomized), Telecaller Web Entry, DCR Report, List Generation, View WhatsApp Schedule, and Create WhatsApp Schedule, Reports.
- Created Client Upload Services to streamline data management and integration.

### INTERPERSONAL SKILLS

- Communication Skills
- Client Relationship Management
- Presentation Skills
- Project Management
- Strategic Thinking

### ACHIEVEMENTS

#### Timely Project Execution and Client Issue Resolution

Delivering project requirements on time and solving problems by providing efficient solutions to client-facing issues.

#### IMAP Service Development for Email Management

Developed an IMAP service implementation to access, read, and manipulate emails as needed, and save them in designated folders.

#### ICAISS - International Conference

Developed a groundbreaking electronic eye topple detection system presented at prestigious IEEE platform, with the potential to greatly enhance safety in households and avert accidents.

### CERTIFICATES

- Software Services - IT Services certified by AMCAT
- IEEE Certification
- Business English certificate by Cambridge

### INTERESTS

Fitness | Dancing |  
Cooking | Guitar Playing

- Managed client projects and handled production release documentation to ensure smooth deployment and updates.

**Project :** IIB File Processing

**Client:** IIB (Insurance Information Beareau)

Annually created new database instances for IIB to efficiently manage large volumes of records.

**Key Achievements and Responsibilities:**

- Implemented year-based record enabling and file upload services for efficient data management.
- Performed updates and enhancements on validation logic based on new client requirements.
- Ensured accurate validation of records by incorporating new validation rules.

**Project :** Reval Remittance

**Client:** Revalsys Product

Developed an automated solution to cross-check retail sales amounts, particularly useful for small store owners to reconcile their sales with e-commerce websites. The system requires only credentials to generate a report, process the calculations, and automatically send the report via email.

**Key Achievements and Responsibilities:**

- Developed services to calculate and reconcile sales data for platforms like TataCliq, Myntra, TataCliq Luxury, Nykaa, and Flipkart, processing details directly from Excel files.
- Implemented IMAP services to read Outlook emails, extract relevant documents, and save them to local directories.
- Utilized background jobs and APIs to automate processes and improve system efficiency.

**Dot Net Developer**

*Voltech It Services*

11/2022 – 12/2023 | Chennai, India

**Project :** Employee portal

**Client:** Envision Healthcare

This project demanded a comprehensive skill set in ASP.NET development, from requirement analysis to deployment, to create a secure and efficient employee login system.

**Key Achievements and Responsibilities:**

- Defined data models and user interfaces aligned with Envision Healthcare's specifications.
- Clean, maintainable, and efficient code in C# in ASP.NET to implement the portal's features.

**EDUCATION**

**B.E.Biomedical Engineer**

*Vel Tech Multi Tech Dr*

*Rangarajan Dr Sakuntala*

*Engineering College*
